

Eco-zyme

Eco-zyme

Eco-zyme is a pectinase enzyme mixture produced from a locally isolated microbe. Eco-zyme offers its potential in kenaf retting industry to produce good-quality kenaf long bast fibres. With eco-zyme, the retting time is shortened, the performance is specific and it is environmentally friendly.

ACHIEVEMENT

- Total fund secured : RM 150,000
- Pitching
MTDC
CRADLE

STATUS

- Fibre sample preparation for Toyota
- Testing with Limonite SB.
- Testing with Felcra Berhad.
