

Special Needs Teaching Kit

- This kit is an evidenced-based curriculum resource which uses music as primary teaching platform to provide parents, teachers and caregivers of children with special needs with much needed tools to impart vital life skills to their children.
- The curriculum will be delivered via a teaching kit, utilizing a mixed media platform comprising a user manual, teaching guide, activity book for individual and group, music storytelling actives, music CDs, smartphone app link.
- These various components are intended to work in integration to aid daily practice and reinforcement, and aid internalization of learning.
- Designed by medical music therapy, music education and special needs experts, the kit will be user friendly and accessible to non-musicians which means parents, teachers, caregiver of the autistic children can use it without any prior musical training.
- The curriculum is targeted at children aged 4-12, in which this is the crucial age stage for early intervention. Early intervention helps to prepare them to succeed in their adolescents and adult life.

ACHIEVEMENT

- **Completed 8 weeks of Innohub UPM workshop**

STATUS

- **Problem Interview stage: 12 interviews done.**
 - 4 for LMC poster 1 (parents)
 - 4 for LMC poster 2 (teachers)
 - 4 for LMC poster 3 (caregivers)
- Designing MVP
- Applying Social Enterprise Accelerator Program @ MAGIC
